Specification Summary

Brand	Alpro
Product type	Cylinder - Euro & Oval

Product Description

The Alpro Euro Mortice Hookbolt Case is a high-security deadlock designed specifically for narrow stile aluminium doors, making it ideal for both swinging and sliding commercial door applications.

Constructed with a robust plated steel case, this hookbolt lock features a 5-ply laminated stainless steel bolt with a hardened centre core and a hardened roll pin. This design provides exceptional resistance against hacksaw attacks, ensuring reliable security for your property. The lockcase is designed to accept standard 17mm Euro profile cylinders or thumbturns, allowing for flexible keying options.

Please note that this lock case is supplied without a faceplate.

This product is available in multiple configurations to suit your installation requirements. Please select your preferred backset (25mm or 30mm), case depth (41mm or 46mm), weight (390g or 420g), and manufacturer reference (5222025 or 5222030) from the options below.

Brand Profile

Alpro

Alpro (Alpro Architectural Hardware) is a UK supplier of **architectural door hardware and access-control components**, focused heavily on the **commercial aluminium door (OEM) market** and the wider **access control** environment. It operates as a **division of IEC Limited**, an **independent, family-owned** company founded in **1938** to supply quality mechanical components.

Alpro's catalogue spans both **mechanical** and **electro-mechanical** products: contemporary **pull handles**, **lever/paddle handles**, **deadlocks/deadlatches**, **cylinders**, **transom door closers**, and hardware like **flushbolts** and **armoured strikes**, alongside access-control staples such as **electric strikes**, **deadlocking/solenoid bolts**, **shearlocks**, **cabinet locks**, and **IP-rated keypads and exit switches**.

The company also highlights **BS EN ISO 9001:2015 approval**, technical support, CAD/design capability, and a stock-led operation aimed at quick dispatch - positioning Alpro as a practical "solve the door problem" brand for installers and fabricators rather than a consumer retail name.
