Product Description

The Asec 1 Lever Double Handed Rimlock is a reliable, surface-mounted locking solution designed for internal doors. With a case depth of 140mm, this rimlock features a double-handed (non-handed) design, making it suitable for installation on both left and right-handed doors.

This lock is available in multiple configurations to suit your preferences. You can choose between a classic Black or a Polished Brass finish, with packaging options of either bagged or boxed. Depending on your selection, the weight ranges from 500g to 600g, with manufacturer references AS10527 or AS10528. Please select your preferred finish, packaging, and specification from the options below.

Each rimlock is supplied complete with 2 keys, operates via a 1-lever mechanism, and features standard 62mm centres with an 8mm spindle.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
