Specification Summary

Brand	Asec
Product type	Finger

Product Description

The Asec 100mm Wide Stainless Steel Finger Plate is a practical and durable solution designed to protect door surfaces from unsightly finger marks, scuffs, and general wear. Measuring 300mm by 100mm, this finger plate is ideal for both commercial and domestic environments, particularly on high-traffic doors where constant physical contact occurs.

Manufactured from high-quality 1.5mm thick stainless steel, this plate offers excellent resistance to corrosion and daily wear, ensuring long-lasting performance. It features pre-drilled, countersunk screw holes, allowing for a quick and straightforward screw-fix installation. Once fitted, the countersunk design ensures that the screws sit flush with the plate's surface, providing a clean, professional, and snag-free finish.

Whether you are looking to protect a new door or cover existing damage, this Asec finger plate provides a neat, functional, and modern aesthetic to any entryway.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS1609
- **Material:** Stainless Steel

- **Finish:** Stainless Steel
- **Height:** 300mm
- **Width:** 100mm
- **Thickness:** 1.5mm
- **Weight:** 120g
- **Fixing Type:** Screw fix (drilled and countersunk)

Key Features

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
