Product Description

The Asec 10mm Stainless Steel Toilet Indicator Set is a durable and stylish solution designed for commercial, public, and residential bathrooms. Featuring a clear visual status display, it shows red when the cubicle is engaged and white when it is vacant, ensuring user privacy and convenience.

Crafted with a high-quality stainless steel finish, this indicator set is built to withstand regular use while maintaining a clean, modern aesthetic. For added safety, it includes an external coin release mechanism, allowing emergency access from the outside if required. The unit is designed with concealed fixings to provide a neat, tamper-resistant installation, and it features a 10mm upstand with a standard 5mm spindle.

Technical Specifications

- **Diameter:** 50mm
- **Depth (Upstand):** 10mm
- **Spindle Size:** 5mm
- **Finish:** Stainless Steel
- **Manufacturer Reference:** AS4546

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
