Specification Summary

Brand	Asec
Product type	Door Stop

Product Description

The Asec 115mm Foot Operated Door Holder is a robust and practical solution designed to hold doors open securely in both domestic and commercial environments. Offering convenient hands-free operation, this sturdy door holder is activated by simple foot pressure, making it ideal for busy corridors, offices, or homes where easy access is required.

With a compact 115mm length and approximately 20mm of travel on the stop plunger, it provides a reliable grip to hold doors firmly in place.

This high-quality door holder is available in multiple finishes, including Polished Brass and Satin Chrome. Please select your preferred finish and manufacturer reference from the options below to match your existing door hardware.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
