Specification Summary

Brand	Asec
Product type	Cut

Product Description

The Asec 15 4 Lever Cut Cupboard Lock is a traditional mortice-in (cut) lock designed for wardrobes, cabinets, and cupboards. It features a reliable 4-lever mechanism offering 12 differs, providing a secure and classic locking solution for your wooden furniture.

Please note that this lock is non-reversible, meaning the correct handing must be selected when ordering. It is available in multiple case sizes, backsets, and handings to suit your specific installation requirements. Please select your preferred width, backset, and handing from the options below.

Each lock is supplied with 2 keys. Keyed alike options can be provided, with the 50mm version keyed alike in-house, and the 64mm version available as a special order via our workshop.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
