Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec 185 Desklock (AS6519) is a premium roll-top mortice desk lock, ideal for securing vintage and antique roll-top desks. It features a mechanism that automatically engages into the strike plate upon closing, providing convenient and reliable security for your workspace.

This lock is supplied complete with a matching strike plate and a decorative escutcheon, ensuring a neat and professional finish that complements traditional furniture aesthetics. It comes in an attractive Satin Brass finish, making it both a secure and visually appealing addition to your desk.

Supplied with two keys, this model features a compact case size and is an ideal choice for restoring or securing classic roll-top desks.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
