Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec 2 Lever Till Lock is a traditional mortice-cut lock designed specifically for securing drawers and tills. Mounted on the inside of a drawer, this lock provides a straightforward security solution where the deadbolt is thrown and retracted using the key.

This high-quality till lock is available in multiple sizes to suit various drawer depths and installation requirements. It features a robust 2-lever mechanism and is finished in an attractive satin brass, blending seamlessly with classic wooden furniture.

Please note that this product is available in a range of case widths, heights, depths, and backsets. Please choose your preferred size and specification from the options below to ensure the perfect fit for your drawer or till.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
