Specification Summary

Brand	Asec
Product type	Cut

Product Description

The Asec 20 1 Lever Cut Cupboard Lock is a high-quality mortice lock designed for securing cupboards, cabinets, and drawers. This cut-in lock fits flush into the woodwork, providing a neat and traditional security solution for furniture.

Please note that this lock is non-reversible, so you must select the correct handing for your installation. It is available in both Left Hand and Right Hand options, with manufacturer references AS6509 and AS6510, and barcodes 5055120607894 and 5055120607887. Please choose your required handing, manufacturer reference, and barcode from the options below.

Each lock is supplied in a classic Satin Brass finish and comes keyed alike as standard, meaning multiple locks can be operated using the same key. One key is supplied with each unit.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
