Specification Summary

Brand	Asec
Product type	Key Cabinet

Product Description

The Asec 25 Capacity Peg In Peg Out Key Cabinet is a robust and highly secure key management solution designed to enhance accountability in commercial and industrial environments. Featuring a solid square-bodied steel construction with a durable grey powder-coated finish, this cabinet is built to withstand daily use.

At the heart of this cabinet is a "peg in, peg out" key control board, which ensures strict tracking of keys. It is supplied with 25 retention pegs and 10 access pegs, allowing managers to easily identify who has taken a specific key. For added storage, the cabinet also features extra key hooks on the door.

Security is managed via a Euro half cylinder lock, supplied with 2 keys. Because it is operated by a standard Euro profile cylinder, this cabinet is exceptionally easy to integrate into an existing master key system, offering seamless access control.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11951
- **Height:** 310mm
- **Width:** 550mm
- **Depth:** 210mm
- **Weight:** 18kg

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
