## Product Description

The Asec 3-Digit Combination Nutfix Camlock is a versatile, keyless locking solution ideal for securing lockers, cupboards, and cabinets. By eliminating the need for physical keys, this mechanical camlock offers a convenient way to protect personal belongings or office supplies. It features a simple-to-use 3-digit combination mechanism that allows users to set and reset their own unique code.

Designed for straightforward installation, this camlock uses a secure nut-fixing method and has a 20mm body depth with a 15mm thread length. The lock operates with a smooth 90-degree clockwise movement and comes supplied with a 35mm cam.

This product is available in multiple finishes, weights, and manufacturer references. Please choose your preferred options from the selection below.

## Technical Specifications

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
