Product type	Door Tidy

Product Description

The Asec 300mm (12 Inch) Letter Box Security Hood is a simple yet highly effective security upgrade designed to protect your home from opportunist thieves. By covering the internal side of your letterbox, it acts as a robust physical barrier that prevents intruders from 'fishing' for house or car keys left on nearby tables or hooks. It also significantly reduces the risk of someone reaching through the letterplate to manipulate internal door handles or

locks.

Manufactured in the UK, this security hood is available in a choice of finishes, including Polished Brass, Silver, and White, allowing you to match it to your existing door furniture. The weight of the unit ranges from 300g to 910g depending on the finish selected. Please choose your preferred finish, manufacturer reference, weight, and barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
