Specification Summary

Brand	Asec
Product type	Key Safe

Product Description

The Asec 4 Wheel Combination Key Safe is designed to provide secure, weather-resistant storage for spare keys. Perfect for both indoor and outdoor installations, this wall-mounted unit offers a practical and reliable solution for homeowners, carers, and property managers who need to grant secure access to keys.

Constructed with a robust, hinge-opening design, the key safe features a resettable 4-digit combination lock, allowing you to easily set and change your own code whenever necessary. To protect the combination wheels from the elements and prevent dirt or water ingress, it is equipped with a sliding weather-resistant shield.

This key safe is spacious enough to hold standard cylinder and mortice keys. It is quick and easy to install, with wall-mounting fixings supplied as standard.

Depending on your requirements, this product is available in different packaging options (including Boxed and Visi-packed) with corresponding manufacturer references and barcodes. Please select your preferred options from the choices below.

Technical Specifications

- **External Dimensions:** 115mm (H) x 95mm (W) x 40mm (D)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
