Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec 41 4 Lever Till Lock is a secure and reliable locking solution designed for tills, drawers, and small cabinet doors. Featuring a robust 4-lever locking mechanism, it provides enhanced security for commercial or domestic applications. The lock is screw-fixed for straightforward installation and features a convenient one-way key entry system.

Finished in an attractive satin brass, this till lock is supplied with two keys and is available in multiple options to suit your security setup. You can select between Keyed Alike (ideal for multiple locks operating with the same key) or Keyed To Differ (where each lock has its own unique key) options. Please choose your preferred keying option,

manufacturer reference, and barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
