Specification Summary

Brand	Asec
Product type	Key Cabinet

Product Description

The Asec 45 Hook Cabinet is a heavy-duty, deep-profile storage solution specifically designed to accommodate up to 45 padlocks or bulky bunches of keys. Unlike standard shallow key cabinets, this robust unit offers the extra depth required to store larger security items without jamming the door.

Constructed with a durable grey powder-coated finish, the cabinet features a distinctive criss-cross door design that provides exceptional structural rigidity and resistance to tampering. Security is maintained via a reliable cylinder lock, supplied with two keys for controlled access.

To ensure effortless organisation, the cabinet is equipped with fixed, colour-coded, and numbered hook bars. It also comes complete with matching colour-coded square key tags, allowing you to easily categorise, identify, and track your padlocks or key sets at a glance. It is an ideal choice for commercial premises, construction sites, and facilities management.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11947
- **Barcode:** 5056240107684
- **External Height:** 550mm
- **External Width:** 380mm
- **External Depth:** 140mm
- **Weight:** 10kg
- **Finish:** Grey (powder-coated)
- **Locking Mechanism:** Cylinder key lock (2 keys supplied)
- **Capacity:** 45 hooks (designed for padlocks or key bunches)

Key Features

- **Deep-Profile Design:** Specifically engineered with extra depth to securely store bulky padlocks and large key bunches.
- **Enhanced Rigidity:** Features a reinforced criss-cross door design for added strength and security.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
