### Product Description

The Asec 48 2-Lever Box Lock is a traditional, reliable locking solution designed specifically for securing wooden boxes, chests, and small cabinets. It features a robust claw-style mechanism where the included brass keep locks securely into the main body of the lock, making it ideal for keeping lids firmly closed.

Crafted with a classic Satin Brass finish, this lock seamlessly blends with both vintage and modern woodwork. It is designed for straightforward screw-fixed installation, offering a neat and secure fit. The lock operates via a dependable 2-lever mechanism and is supplied keyed to differ with two keys, providing a practical level of security for your personal belongings, keepsakes, or tools.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
