Specification Summary

Brand	Asec
Product type	Double Oval
Keyway	Asec 5 pin locks

Product Description

The Asec 5-Pin Oval Double Cylinder is an excellent entry-level locking solution, offering reliable security for doors requiring key access from both sides. Designed to fit standard oval profile lock cases, this double cylinder is a versatile and cost-effective choice for domestic and light commercial applications.

Each cylinder is supplied complete with three keys and a cylinder retaining screw, ensuring you have everything needed for a straightforward installation. To suit your specific door requirements, this cylinder is available in a range of overall body lengths from 60mm to 80mm and comes in a choice of Polished Brass or Nickel Plated finishes. Please select your preferred size, finish, and packaging option from the selection below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
