Is Cylinder

Product Description

The Asec 5-Pin Oval Key & Turn Cylinder is an excellent, cost-effective entry-level locking solution. Designed with a classic oval profile, this cylinder offers key operation on one side and a convenient thumbturn on the other, allowing for quick and easy locking or unlocking from the inside without needing a key.

This versatile cylinder is supplied complete with three keys and a retaining screw. It is available in a selection of overall sizes, including 30/T30 (60mm) and 35/T35 (70mm), and comes in both Nickel Plated and Polished Brass finishes. Please choose your preferred size, finish, and packaging options from the selections below to find the perfect fit for your door.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
