Specification Summary

Brand	Asec
Product type	Rim Cylinders
Keyway	Asec 5 pin locks

Product Description

The Asec 5-Pin Rim Cylinder is a reliable, entry-level replacement cylinder designed for use with standard rim nightlatches on wooden doors. It is an ideal choice for remedial work, quick lock replacements, or upgrading existing setups.

This cylinder is supplied complete with all necessary fixings and three keys, allowing for immediate installation. It is available in a variety of finishes, keying options, and packaging types to suit your specific requirements. Please choose your preferred finish, keying option, and packaging from the options below.

Whether you need a standard Keyed to Differ cylinder or a Keyed Alike option for convenience across multiple doors, this Asec rim cylinder offers a cost-effective and dependable security solution.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
