Specification Summary

Brand	Asec
Product type	Key Cabinet

Product Description

The Asec 50 Hook Digital Self Closing Cabinet is a robust, deep-profile storage solution specifically designed to securely house padlocks or bulky key bunches. Constructed with a durable grey powder-coated finish, this heavy-duty cabinet features a criss-cross door design that provides exceptional rigidity and resistance against tampering.

For enhanced security and convenience, the cabinet is fitted with a self-closing hinge to ensure the door is never accidentally left open. Access is controlled via a mechanical digital push-button lock, offering over 8,000 potential combinations with an easy-to-use code change mechanism. To help keep your keys or padlocks organised, the unit

is supplied complete with colour-coded key tags, rings, and numbers.

Whether used in commercial, industrial, or residential settings, this 11kg cabinet offers a highly reliable and organised way to manage your security assets.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
