Product Description

The Asec 50mm 2 Lever Cupboard Lock is a reliable, high-quality cut or mortice cupboard lock designed for securing cabinet doors and cupboards. Featuring a robust 2-lever mechanism, this lock provides dependable security for domestic and commercial furniture.

Please note that this lock is handed and is not reversible. It is available in both Left Hand and Right Hand options, with corresponding manufacturer references AS11961 and AS11962. To ensure you receive the correct handing for your specific application, please choose from the available options below before ordering.

Each lock is supplied in a satin brass finish with two keys, keyed to differ, and is packed in a convenient visi pack. With a 50mm forend length and a compact 13mm backset, it is an ideal choice for neat, flush-fitting installations.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
