Specification Summary

Brand	Asec
Product type	Indicator

Product Description

The Asec 5mm Stainless Steel Toilet Indicator Set is a high-quality architectural bathroom turn and release, perfect for both commercial and residential cubicle doors. Manufactured from durable Grade 304 satin stainless steel, this privacy set offers a sleek, contemporary aesthetic alongside excellent corrosion resistance, making it ideal for high-traffic or humid environments.

With a slim 5mm depth and a 50mm diameter, this set provides a neat, low-profile finish. It features concealed fixings to hide unsightly screws, maintaining a clean and professional look on the door. The exterior face includes a clear visual status indicator to show occupancy, along with an emergency release slot that can be easily operated from the outside using a flat edge, such as a coin or screwdriver.

Please note that compatible bathroom locks or deadbolts are sold separately.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
