Product Description

The Asec 6-Pin Oval Key & Turn Cylinder is a reliable, entry-level security solution designed for doors requiring convenient keyless egress. Featuring an oval profile, this cylinder is operated by a key from the outside and a thumbturn from the inside, making it ideal for both residential and commercial applications where quick exit is essential.

Each cylinder is supplied complete with three keys and a retaining screw for straightforward installation. For added convenience, this cylinder can be keyed alike or master keyed through our professional in-house workshop, allowing you to operate multiple locks with a single key.

This cylinder is available in multiple finishes, packaging types, and manufacturer references. Please choose your preferred finish, packaging option, and reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
