Specification Summary

Brand	Asec
Product type	Screw In
Keyway	Asec 6 pin locks

Product Description

The Asec 6-Pin Screw-In Cylinder is a reliable, mid-range locking cylinder commonly used in conjunction with metal door locks, such as mortice deadlocks. It offers a dependable security solution for commercial and domestic metal doors alike. Each cylinder is supplied complete with three keys and a dedicated fixing screw, ensuring you have everything needed for a straightforward installation.

For added convenience, this 6-pin cylinder can be keyed alike or master keyed directly through our professional in-house workshop, allowing you to integrate it into a larger, single-key system. It is also available 1-bitted off the shelf for locksmiths or customers who prefer self-assembly.

This product is available with multiple options for packaging, manufacturer references, and barcodes. Please select your preferred packaging type (Boxed or Visi), manufacturer reference (AS1430 or AS10802), and corresponding barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
