Specification Summary

Brand	Asec
Product type	Letter Cage

Product Description

The ASEC 62M Medium Letter Cage is a practical and secure solution designed to mount on the back of your door, directly behind your letter plate. It catches incoming post to prevent it from falling onto the floor, making mail retrieval easy and convenient while saving you from bending down. It is also an excellent way to keep your mail safe from pets or out of sight from potential intruders.

For added security, this letter cage features a design that can be padlocked (padlock not included) to prevent unauthorised access to your mail. It is constructed from high-quality steel and is available in multiple finishes, including White and Bronze, with weights ranging from 800g to 870g. Please choose your preferred finish,

manufacturer reference, and weight from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
