Specification Summary

Brand	Asec
Product type	Cupboard

Product Description

The Asec 6mm 'D' Cupboard Handle is a classic, practical choice for updating or installing hardware on cupboards, cabinets, and drawers. Featuring a sleek, minimalist D-shape design with a slim 6mm diameter, this handle offers a comfortable grip and a clean, modern aesthetic that complements a wide variety of interior styles.

Constructed from lightweight yet durable aluminium, these handles are designed to withstand everyday use in kitchens, bathrooms, or bedrooms. They are available in multiple lengths and finishes to suit your specific furniture requirements. Please choose your preferred length, finish, and reference option from the selection below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
