Specification Summary

Brand	Asec
Product type	Finger

Product Description

The Asec 75mm Wide Aluminium 'Push' Finger Plate is a practical and stylish solution designed to protect door surfaces from wear, tear, and finger marks in high-traffic areas. Measuring 300mm by 75mm, this plate features a clear, engraved "PUSH" legend that is paint-filled for maximum visibility, helping to guide users and improve the flow of foot traffic.

Crafted from high-quality 1.5mm thick anodised aluminium, this finger plate offers excellent durability and corrosion resistance, making it ideal for both commercial and domestic environments. It is quick and easy to install using screw fixings, providing a secure and flush fit to the door. The satin anodised aluminium (SAA) finish ensures a modern, clean look that complements a wide range of contemporary door hardware.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
