Specification Summary

Brand	Asec
Product type	Finger

Product Description

The Asec 75mm Wide Stainless Steel 'Push' Finger Plate is a practical and stylish solution designed to protect door surfaces from wear, dirt, and unsightly fingerprint marks. Ideal for high-traffic commercial, public, and residential environments, this finger plate ensures your doors remain clean and well-maintained while offering clear directional guidance to users.

Crafted from high-quality 1.5mm thick stainless steel, this durable plate features a satin finish that seamlessly blends with modern door hardware. It comes with "PUSH" clearly engraved and paint-filled for maximum visibility. The plate is designed with radius (rounded) corners to provide a safe, smooth finish and a contemporary aesthetic.

Installation is quick and straightforward, thanks to the pre-drilled corner holes for secure screw fixing. This single-pack item is a reliable addition to any busy doorway, combining robust protection with clear signage.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS4513
- **Material:** Stainless Steel
- **Finish:** Satin Stainless Steel
- **Length:** 300mm (30cm)
- **Width:** 75mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
