Specification Summary

Brand	Asec
Product type	Kick

Product Description

The Asec 760mm Wide Aluminium Kick Plate is a durable, screw-fixed door protection solution designed to safeguard the bottom of doors from scuffs, impacts, and general wear. Manufactured from high-quality anodised aluminium, this kick plate features a clean Satin Anodised Aluminium (SAA) finish, making it an ideal choice for both commercial and residential environments.

It is simple to install and provides a robust barrier that helps extend the lifespan of your doors. This kick plate is available in a selection of heights ranging from 150mm to 400mm, with weights varying from 320g to 1.15kg to suit different levels of door protection. Please choose your required height, weight, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
