Specification Summary

Brand	Asec
Product type	Kick

Product Description

The Asec 835mm Wide Aluminium Kick Plate is a highly durable and practical solution designed to protect the bottom of doors from scuffs, kicks, and general wear. Perfect for high-traffic areas in both commercial and residential properties, this kick plate helps maintain the appearance and structural integrity of your doors.

Crafted from high-quality anodised aluminium with a satin finish, it provides a clean, professional look while offering robust protection. The plate is easy to install and is designed for secure screw fixing.

This product is available in multiple heights ranging from 150mm to 400mm, with weights varying from 500g to 1.25kg. Please select your required height, weight, barcode, and manufacturer reference from the options below to suit your specific door requirements.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
