Specification Summary

Brand	Asec
Product type	Mortice

Product Description

The Asec A2 Mortice Release with Delayed Action (AS9544) is a reliable, low-duty electric release designed to be fitted within a door frame. When integrated with an access control system and a standard latch, it allows doors to be unlocked remotely with ease.

A key feature of this model is its clever delayed action mechanism. Once powered, the unit remains unlocked until the door has been opened, and it will automatically re-lock as soon as the door is closed. This ensures the door is never left unsecured if there is a delay between the release being triggered and the user walking through.

Operating on a Fail Locked configuration, the release requires power to unlock and remains securely locked in the event of a power failure. It is powered by a 12V AC input, draws 0.65A, and offers a robust holding force of up to 295kg (650lbs). Finished in a neutral grey, it comes complete with a 1-year manufacturer's guarantee.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS9544
- **Fitting:** Mortice
- **Operation:** Fail Locked
- **Input Voltage:** 12V AC
- **Current Consumption:** 0.65A
- **Holding Force:** 295kg / 650lbs
- **Faceplate Height:** 160mm
- **Faceplate Width:** 25mm
- **Body Height:** 105mm
- **Body Depth:** 28mm
- **Jaw Height:** 45mm
- **Jaw Width:** 11mm
- **Jaw Depth:** 8mm
- **Adjustable Jaw:** No
- **Monitored:** No
- **Finish:** Grey

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
