Specification Summary

Brand	Asec
Product type	Surface

Product Description

The Asec A95C Surface Release is a rim-fitted electric release designed to replace the standard keep on a surface-mounted rim nightlatch. This surface-mounted electric strike is ideal for low-duty applications, enabling remote door unlocking via intercoms or access control systems.

This release features a fail-unlocked (fail-safe) operation, meaning it will unlock in the event of a power failure to allow safe exit. It is designed specifically for inward-opening doors and comes complete with packing pieces to assist with installation.

The Asec A95C is available in both 12V DC and 24V DC options, which are continuously rated. Please select your preferred input voltage, current consumption, and manufacturer reference from the options below to suit your specific system requirements.

Technical Specifications

- **Brand:** Asec
- **Fitting:** Surface
- **Operation:** Fail Unlocked
- **Input Voltage:** 12V DC or 24V DC (please choose from the options below)
- **Current Consumption:** 0.08A or 0.16A (please choose from the options below)
- **Holding Force:** 295Kg / 650Lbs
- **Body Height:** 106mm
- **Body Depth:** 36mm
- **Faceplate Height:** 145mm
- **Faceplate Width:** 36mm
- **Jaw Height:** 40mm
- **Jaw Width:** 11mm
- **Jaw Depth:** 8mm
- **Handed:** Inward Opening
- **Finish:** Grey
- **Guarantee:** 1 Year
- **Monitored:** No
- **Adjustable Jaw:** No
- **Weather Resistant:** No
- **Manufacturer Reference:** AS9559 or AS9560 (please choose from the options below)

Key Features

- **Rim Nightlatch Replacement:** Designed to fit in place of the standard keep on a rim nightlatch.
- **Fail Unlocked (Fail Safe):** Remains unlocked in the event of a power failure.
- **Continuously Rated:** Both 12V DC and 24V DC options are continuously rated.
- **Complete Kit:** Supplied complete with packing pieces for straightforward installation.
- **Low Duty:** Designed for low-duty, inward-opening applications.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
