Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec Single Door Access Kit is a comprehensive security solution designed to provide reliable access control for a single door. This kit features a robust powder-coated steel power supply enclosure in a clean white finish, complete with an integrated 12-button keypad and proximity reader.

The built-in switch-mode power supply provides a regulated 13.8V DC output and is designed with safety in mind, offering short circuit protection and deep discharge protection. The enclosure is spacious enough to house a backup battery of up to 12V 9Ah, ensuring continued operation during power outages.

Users can choose their preferred access method, either by entering a code on the 12-button keypad or by using the integrated proximity reader in combination with compatible EM cards and fobs. Clear LED indicators provide immediate visual feedback on the system's status, making it user-friendly and highly efficient.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11893

- **Output Voltage:** 13.8V DC
- **Power Supply:** 2 Amp
- **Material:** Steel (Powder Coated)
- **Finish:** White
- **Number of Buttons:** 12
- **Width:** 26.5cm
- **Depth:** 72mm
- **Weight:** 1.3kg
- **Pack Quantity:** 1

Key Features

- **Integrated Access Control:** Combines a 12-button keypad and a proximity reader in one unit.
- **Flexible Entry Options:** Supports access via PIN code or proximity using compatible EM cards and fobs.
- **Battery Backup Ready:** Enclosure can house a backup battery up to 12V 9Ah (battery not included).
- **Advanced Protection:** Features switch-mode technology, short circuit protection, and deep discharge protection.
- **Visual Feedback:** Built-in LED indicators display the system's current status.
- **Durable Construction:** Housed in a sturdy, powder-coated steel enclosure.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
