Specification Summary

Brand	Asec
Product type	Call Point

Product Description

The Asec Alarmed Call Point Cover is a highly effective, robust solution designed to protect emergency break glass units from accidental damage, vandalism, and malicious false alarms. Manufactured from tough, tamper-proof polycarbonate, this clear protective cover is ideal for high-traffic environments such as schools, hospitals, and public buildings.

When the cover is lifted to access the call point, an integrated, battery-powered sounder emits a powerful 96dB alarm. This immediate audible alert acts as a strong deterrent to pranksters and vandals while ensuring emergency access remains unhindered.

Designed for ultimate versatility, the cover is suitable for both flush and surface mounting, making it perfect for retrofitting over existing installations. It comes complete with a glow-in-the-dark frame for high visibility in low-light conditions, a choice of red or green housing inserts to match your specific system requirements, and a 3V lithium battery.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11884
- **Barcode:** 5056240103891
- **Material:** Polycarbonate
- **Finish:** Clear
- **Legend:** "Lift Here"
- **Alarm Sounder:** 96 dB
- **Battery:** 3V Lithium (included)
- **Fitting:** Suitable for flush and surface mounting
- **Width:** 116mm
- **Depth:** 68mm
- **Weight:** 500g

Key Features

- **Deters False Alarms:** Integrated 96dB battery-powered sounder triggers when the cover is lifted, discouraging vandals and pranksters.
- **Robust Construction:** Made from tough, tamper-proof polycarbonate to protect call points from accidental damage.
- **Highly Visible:** Features a glow-in-the-dark frame to ensure the call point remains easy to locate during power cuts or low-light emergencies.
- **Versatile Installation:** Suitable for retrofitting over existing break glass units with options for both flush and surface mounting.
- **Customisable Design:** Supplied with a choice of red and green inserts to suit fire or access control systems, plus one break seal.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
