Specification Summary

Brand	Asec
Product type	DDA

Product Description

The Asec All Active Large Surface Push Plate DDA Exit Button is an oversized, highly accessible exit button designed to assist less able users in navigating access-controlled doors. Featuring a robust 2mm stainless steel mounting plate, this surface-mounted button is ideal for public buildings, offices, and healthcare facilities where ease of use is paramount.

With its "all active" touch-anywhere action, users can activate the switch by pressing any part of the large plate, making it incredibly easy to operate even with limited dexterity. The plate is clearly etched with a bold "Push To

Open" legend. It features a low-profile switch at the rear of the plate to ensure a neat, compact installation, and is supplied complete with security screws to deter tampering.

Operating on a momentary action with both normally open (N/O) and normally closed (N/C) outputs, this exit button supports 12/24V DC input voltage and is rated at 5 Amps @ 30V.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS9870
- **Fitting:** Surface
- **Finish:** Stainless Steel
- **Input Voltage:** 12/24V DC
- **Current Rating:** 5A @ 30V
- **Operation:** Momentary
- **Outputs:** N/O & N/C
- **Connections:** 2 to 4
- **Legend:** Push To Open
- **Illumination:** No
- **Width:** 85mm
- **Depth:** 33mm
- **Diameter:** 87mm
- **Weight:** 260g
- **Pack Quantity:** 1

Key Features

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
