Product Description

The Asec 'All Visitors and Drivers Must Report To Reception' sign is a highly visible mandatory access sign designed to manage site entry and improve security. Ideal for commercial premises, warehouses, and offices, this sign clearly instructs all incoming visitors and delivery drivers to check in at reception before entering the main areas of your facility.

Manufactured from durable, semi-rigid PVC, this sign features a self-adhesive backing that allows for quick and straightforward installation on any clean, flat surface. There is no need for screws, drilling, or additional fixings. The sign incorporates the standard mandatory blue circle with a white symbol, ensuring it is easily recognizable and complies with standard safety sign conventions.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
