Specification Summary

Brand	Asec
Product type	Indicator

Product Description

The Asec Aluminium Cubicle Indicator is a robust and highly accessible locking solution designed specifically for commercial washrooms, changing rooms, and public toilet cubicles. Manufactured from durable satin anodised aluminium, this indicator bolt combines modern aesthetics with heavy-duty performance.

Designed with inclusivity in mind, this cubicle indicator features several DDA-compliant elements. The smooth slide bolt is engineered for effortless operation, allowing users to lock and unlock the door easily with a clenched fist. Additionally, the high-contrast red and white indicator provides clear, instant visual differentiation to assist visually impaired users.

For added security and longevity in high-traffic environments, the unit bolts back-to-back through the door, creating an exceptionally strong fixing that helps deter vandalism. It is highly versatile, suitable for both 13mm and 20mm board thicknesses, and comes complete with an open-in keep and protective rubber buffers. In the event of an emergency, a convenient external coin release allows quick and safe access from the outside.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10600
- **Finish:** Satin Anodised Aluminium
- **Board Thickness Compatibility:** 13mm and 20mm
- **Pack Quantity:** 1
- **Weight:** 202g
- **Barcode:** 5055120762555

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
