Specification Summary

Brand	Asec
Product type	Escutcheon & Rose

Product Description

The Asec Aluminium Escutcheon is a stylish and practical door accessory designed to provide a neat, professional finish around keyholes and lock cylinders. Manufactured from durable anodised aluminium, these escutcheons protect the door surface from wear and tear while tidily concealing cut-outs.

This versatile range is available in multiple configurations to suit different lock types, including Euro Cylinder, Oval Cylinder, and UK Mortice mechanisms. Depending on the model selected, they feature a depth of either 5mm or 10mm, and an overall diameter of 50mm or 52mm. Please choose your required mechanism, size, and specification from the options below to ensure a perfect fit for your door.

Each escutcheon is designed with concealed fixings, meaning all mounting screws are hidden beneath the outer cover. This not only provides a clean, modern, and seamless aesthetic but also enhances security by preventing direct tampering with the fixings.

Technical Specifications

- **Brand:** Asec
- **Finish:** Anodised Aluminium
- **Mechanism Options:** Euro Cylinder, Oval Cylinder, or UK Mortice (please choose from the options below)
- **Diameter:** 50mm or 52mm (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
