Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Aluminium Miniature Circuit Breaker (MCB) Lockout Toggle is an essential safety device designed for Lock Out Tag Out (LOTO) procedures. It helps safeguard personnel from unexpected machine startups or hazardous energy releases during essential servicing and maintenance.

This lockout toggle is exceptionally easy to use. Simply switch off the circuit breaker, place the lockout device over the toggle switch, and tighten the internal grub screw to secure it in place. Once positioned, a safety padlock can be fitted through the hole in the lockout hasp. This blocks access to the grub screw, preventing the switch from being operated until the padlock is removed.

Constructed from lightweight and durable aluminium, the toggle features a highly visible yellow finish, making it easy to identify on electrical panels. With a maximum clamping size of 6mm, it is compatible with a wide range of standard toggle switches.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11856
- **Material:** Aluminium

- **Finish:** Yellow
- **Maximum Clamping Size:** 6mm
- **Weight:** 50g
- **Pack Quantity:** 1
- **Barcode:** 5015397488022

Key Features

- **Easy to Install:** Simply turn off the breaker, place the lockout over the switch, and tighten the internal grub screw.
- **Secure Lockout:** Padlock hasp prevents access to the grub screw, stopping the switch from being operated until the padlock is removed.
- **Durable Construction:** Made from lightweight and robust aluminium.
- **High Visibility:** Finished in bright yellow for quick identification on electrical panels.
- **LOTO Compliant:** Designed to meet standard safety practices and procedures to protect employees during maintenance work.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
