Product Description

The Asec Aluminium Toilet Indicator Set is a practical and stylish privacy solution designed for toilet cubicle and bathroom doors. Manufactured with a high-quality anodised aluminium finish, this set provides a clean, modern look that complements a wide range of commercial and domestic interiors.

The external indicator offers a clear visual status, displaying red when the room is engaged and white when it is vacant. For added safety and peace of mind, the exterior face features an emergency release slot, allowing the door to be quickly unlocked from the outside using a simple flat-edged tool, such as a coin or screwdriver.

With its concealed fixings, this indicator set ensures a neat, professional installation with no visible screws. Please note that compatible locks or deadbolts are sold separately.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
