Specification Summary

Brand	Asec
Product type	Mortice

Product Description

The Asec ANSI Mortice Release is a highly versatile and robust electric strike designed for secure access control systems. This ANSI-style release is supplied with both long and short stainless steel faceplates, making it suitable for both timber and metal door installations. It features a site-reversible operation, allowing you to easily switch between fail locked (fail secure) and fail unlocked (fail safe) modes with no loose pins to worry about.

This mortice release is available in several configurations, including monitored and non-monitored versions, as well as options for 12V DC or dual 12/24V DC input voltage. Depending on the model selected, specifications such as body height (83mm to 85mm), faceplate width (32mm to 40mm), jaw dimensions, and current consumption will vary. Please choose your preferred configuration from the options below to suit your specific installation requirements.

Technical Specifications

- **Fitting:** Mortice
- **Finish:** Stainless Steel
- **Input Voltage:** 12V DC or 12/24V DC (depending on option selected)
- **Operation:** Fail Locked / Fail Unlocked (Site Reversible)
- **Monitoring:** Available in monitored and non-monitored versions (please choose from the options below)
- **Holding Force:** 900Kg to 907Kg (2,000 lbs)
- **Body Height:** 83mm to 85mm
- **Body Depth:** 35mm
- **Faceplate Height:** Short (124mm) or Long (200mm - 201mm)
- **Faceplate Width:** 32mm to 40mm
- **Jaw Dimensions:** 11mm - 12mm (Depth) x 36mm - 38mm (Height) x 16mm - 17mm (Width)
- **Current Consumption:** 0.1A to 0.25A @ 12V DC (and up to 0.2A @ 24V DC for dual-voltage models)
- **Operating Temperature:** -10°C to 45°C
- **Weight:** 100g to 700g
- **Guarantee:** 1 Year

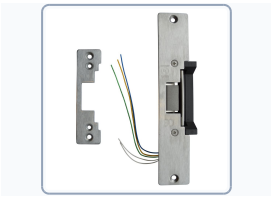

Key Features

- **High Security:** Offers a robust holding force of up to 2,000 lbs (907Kg)
- **Site Reversible:** Easily switched between fail locked (fail secure) and fail unlocked (fail safe) with no loose pins
- **Dual Faceplates Included:** Supplied with both long (timber installation) and short (metal installation) stainless steel faceplates
- **Highly Durable:** Tested to withstand up to 1,000,000 cycles
- **Versatile Configurations:** Available in monitored and non-monitored options to suit your access control requirements

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
