Specification Summary

Brand	Asec
Product type	Anti Thrust Plate

Product Description

The ASEC Anti-Thrust Lock Guard Plate is a robust security solution designed to protect vulnerable lock areas from physical attack and tampering. Featuring a narrow stile profile, this plate is ideal for commercial applications where external doors require an extra layer of physical protection.

This versatile guard plate is non-handed and suitable for both inward and outward opening doors. To ensure maximum security and a clean aesthetic, the screw fittings are installed on the side face of the door or frame, keeping them completely out of sight and inaccessible to potential intruders.

This product is available in multiple finishes, including Gold and Grey, with weights ranging from 250g to 260g. Please select your preferred finish, weight, and manufacturer reference from the options below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
