Product type	Miscellaneous

Product Description

The Asec Antique Style Cylinder Pull is a robust, solid metal door accessory designed to bring classic, traditional charm to your entryway. Featuring a rustic antique-style design and a durable black finish, this cylinder pull is perfect for period properties, cottage-style doors, or any home looking to add a touch of heritage character.

Designed to fit neatly around a standard rim cylinder (such as those used with traditional nightlatches), it provides a comfortable and secure grip to pull your door closed from the outside. Crafted from high-quality solid metal, it offers long-lasting durability and a reassuringly sturdy feel. This 125mm pull is part of Asec's popular black ironmongery range, making it easy to coordinate with matching door hardware for a cohesive, traditional look.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS12020
- **Barcode:** 5019923833287

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
