### Product Description

The Asec Antique Style Escutcheon is a high-quality, solid metal door accessory designed to bring a touch of traditional charm to your home. Featuring a classic antique-style design and a durable black finish, this escutcheon is the perfect finishing touch for rustic, period, or cottage-style doors.

Crafted from solid metal, it offers robust durability and a premium feel. Measuring 75mm, it provides an elegant surround for keyholes, helping to protect the door surface from scratches and wear caused by keys while neatly concealing the cut-out. Whether you are restoring an older property or adding character to a modern door, this black antique escutcheon from Asec delivers both style and functionality.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
