Product Description

The Asec Antique Style Lock Handle offers a perfect blend of traditional charm and modern functionality. Crafted from solid cast metal, this durable door handle features an elegant antique scroll design, making it an ideal choice for period properties, cottage-style doors, or anyone looking to add a touch of rustic character to their home.

Finished in a classic black, the handle is designed to withstand daily use while maintaining its timeless appeal. It features a built-in sprung mechanism, ensuring the lever returns smoothly to its original position after use and reducing wear on your lock. Supplied as a complete pair, this 155mm backplate handle is designed for doors requiring a standard keyhole lock profile.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
