Product Description

The Asec Antique Style Ring Handle Knocker is a robust and stylish addition to any traditional front door. Manufactured from solid metal, this high-quality door knocker features a classic ring handle design that perfectly complements period properties, rustic cottages, and traditional homes.

With its durable black finish, this 125mm knocker not only offers an authentic antique aesthetic but also provides reliable performance against the elements, ensuring long-lasting appeal. It is designed to be both functional and decorative, offering a clear, resonant knock to alert you to visitors while enhancing your home's kerb appeal.

Whether you are restoring an older property or looking to add a touch of classic character to a modern door, this Asec ring knocker is an ideal choice.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
