Specification Summary

Brand	Asec
Product type	Door Loop

Product Description

The Asec Armoured Door Loop is a highly reliable, surface-mounted solution designed to securely transfer electrical cables from a door frame to the door leaf. Ideal for access control installations, electric locks, and door entry systems, this armoured loop ensures that low-voltage wiring is fully protected from being snagged, pinched, or maliciously tampered with.

Constructed with a robust armoured conduit, it features an attractive anodised aluminium finish that blends seamlessly with modern commercial and residential doors. It is typically installed on the hinge side of the door, allowing the flexible loop to bend naturally as the door opens and closes. With a generous 400mm length and an 8mm internal conduit diameter, it easily accommodates standard cabling while ensuring a neat, professional installation.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS8005
- **Finish:** Anodised Aluminium
- **Fitting Type:** Surface mounted
- **Length:** 400mm (40cm)
- **Conduit Diameter (Internal):** 8mm (5/16")
- **Conduit Diameter (External):** 12mm (1/2")
- **Weight:** 142g

Key Features

- **Secure Cable Transfer:** Safely routes low-voltage cables from the frame to the door leaf.
- **Armoured Protection:** Prevents wires from being snagged, pinched, or cut, ensuring system integrity.
- **Surface Mounted:** Easy to install directly onto the door and frame surface.
- **Flexible Design:** Installed on the hinge side to bend naturally during door operation.
- **Durable Finish:** Anodised aluminium construction offers excellent durability and a professional appearance.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
