Specification Summary

Brand	Asec
Product type	Deadbolt

Product Description

The Asec AS11 Deadbolt Nightlatch is a robust and reliable locking solution designed to prevent accidental lockouts. This deadbolt-operated nightlatch features key operation from the outside and a convenient turn handle (lever) operation from the inside. Because it operates as a deadbolt, there is no intermediate latching action, ensuring the door only locks when you intend it to.

This versatile nightlatch is available in multiple configurations to suit your security needs. You can choose between a 'Case Only' option (ideal if you already have a compatible rim cylinder) or a complete 'Case with Cylinder' pack that includes a 5-pin rim cylinder and three keys. It is also available in a choice of finishes, including Dull Metal Grey and Polished Chrome, to match your door hardware. Depending on your selection, the unit weight ranges from 800g to 950g, with manufacturer references including AS1727 and AS1728. Please select your preferred case finish, mechanism, and package contents from the options below.

Technical Specifications

- **Backset:** 60mm
- **Case Finish:** Dull Metal Grey or Polished Chrome (please choose from the options below)
- **Mechanism:** 5 Pin Cylinder or Rim Cylinder Not Included (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
