Specification Summary

Brand	Asec
Product type	Deadlocking

Product Description

The Asec AS15 & AS19 Deadlocking Nightlatches are robust, double-locking lever-action rim locks designed to provide reliable security for residential and commercial doors. The AS15 model features a compact 40mm backset, while the AS19 model offers a standard 60mm backset.

These nightlatches operate via an internal lever handle to withdraw the latchbolt, or by key from the outside. For enhanced security, full deadlocking is achieved by a reverse turn of the key from the outside, which locks the internal handle to prevent unauthorised entry or bypass. A convenient snib button on the lockcase allows you to hold the latch back in the open position or lock it in the closed position.

Available in a wide range of case finishes - including Black, Brasslux, Dull Metal Grey, Polished Chrome, Satin Chrome, and White - and with Polished Brass or Satin Chrome cylinder options (as well as "Case Only" variants for use with your existing cylinders), you can easily find the perfect match for your door. Please select your required backset, finish, and cylinder options from the selection below.

Technical Specifications

- **Backset:** 40mm (AS15) or 60mm (AS19) (please choose from the options below)
- **Case Finish:** Black, Brasslux, Dull Metal Grey, Polished Chrome, Satin Chrome, or White (please choose from the options below)
- **Cylinder Finish:** Polished Brass, Satin Chrome, or Case Only (please choose from the options below)
- **Cylinder System:** Asec 5-pin nightlatch cylinder (where supplied)
- **Keys Supplied:** 2 keys (keyed to differ, on cylinder-inclusive models)
- **Door Thickness:** Suitable for doors up to 57mm thick (or 54mm when used with a cylinder pull)
- **Case Height:** 70mm
- **Case Depth:** 0mm to 41mm (please choose from the options below)
- **Weight:** 590g to 800g (please choose from the options below)
- **Packaging:** Boxed or Visi (please choose from the options below)

Key Features

- **Double Locking Security:** Deadlocking is achieved by a reverse turn of the key from the outside, disabling the internal lever handle.
- **Versatile Snib Function:** Snib button allows the latchbolt to be locked in either the open (held back) or closed position.
- **Flexible Configurations:** Available as a complete lockset with a 5-pin cylinder or as a "Case Only" option to suit your existing cylinder.
- **Wide Range of Finishes:** Multiple case and cylinder finishes available to complement any door hardware.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
