Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec AS3300 Series Oval Knob Operated Digital Lock (AS3301) offers a secure and highly convenient access control solution for light to medium-duty applications. Designed for both internal and external timber doors, this mechanical digital lock features a reversible design suitable for left or right-handed installation.

A standout feature of the AS3300 series is its quick and easy on-door code change function. This allows users to update the entry code in seconds without the hassle of removing the unit from the door. For added versatility, the lock includes an optional holdback snib, enabling free passage when unrestricted access is required.

To enhance security, the lock is supplied with a 60mm anti-thrust latch that helps protect against tampering. With over 4,000 potential non-sequential code combinations, it provides reliable security for offices, storerooms, and residential properties alike.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
